SYEMC to perform emergency substation maintenance

Yadkin County - Surry-Yadkin Electric Membership Corporation will be conducting emergency substation maintenance tonight which will affect approximately 1,700 members served by the Cooperative's Yadkin Substation. The maintenance will result in an extended service interruption that will begin around 11 p.m. We will work diligently to perform the necessary maintenance safely while minimizing the duration of the service interruption.

All members who are served by the Yadkin Substation will receive phone calls and email notifications later today with more information. We appreciate your patience as we perform this necessary, time-sensitive maintenance, and apologize for any inconvenience to those affected.
