

Residential All-Electric Service Agreement

AVAILABILITY

This schedule is available in all territories served by the Cooperative, subject to the established Service Rules and Regulations of the Cooperative. All terms, conditions, and charges of the General Service schedule apply except as specifically changed within this schedule.

APPLICABILITY

This schedule is applicable to individual residential members in residences, manufactured homes, or individually metered apartments who meet the following requirements:

1. All energy required for water heating, cooking, clothes drying, and environmental space conditioning must be supplied electrically. All electric energy used by such dwelling must be recorded through a single meter.
2. One or more electric heat pumps must be installed and used to supply the primary heating requirements throughout the residence – primary means the main source of heat, supplying the majority of the residence’s heating requirements on an ongoing basis. Non-electric space heating sources such as solar, non-ducted wood stoves, gas logs, and portable kerosene heaters are permitted only for supplemental use.

TYPE OF SERVICE

Service under this schedule shall be single-phase, 60-cycle, at the Cooperative’s available secondary voltage.
