Monday - Friday

8:00 a.m. - 4:30 p.m.

Weatherization Assistance Program

is funded by the

N. C. Department of Energy and Natural Resources.

Home Energy Conservation Checklist

This checklist outlines actions that conserve energy within homes:

- ✓ Turn down the temperature of your water heater to the warm setting (120°F).
- ✓ Survey your incandescent lights for opportunities to replace them with compact fluorescent lights.
- ✓ Turn off lights in unoccupied rooms.
- ✓ Turn off your computer monitor when not in use for more than 20 minutes, and turn off both the CPU and monitor if you're not going to use your computer for more than 2 hours.
- ✓ Unplug equipment that drains energy when not in use (i.e. cell phone chargers, fans, coffeemakers, desktop printers, radios, etc.).
- ✓ During winter, open curtains on your south-facing windows during the day to allow sunlight to naturally heat your home, and close them at night to reduce the chill.
- ✓ Clean or replace filters in your furnace, air conditioner, and heat pump.
- ✓ Close the damper when the fireplace is not being used.
- ✓ Keep the thermostat at the lowest comfortable setting during winter.
- ✓ Keep the thermostat at the highest comfortable setting during the summer.
- ✓ Make sure no obstacles, such as furniture, are blocking heating or cooling outlets.
- ✓ Use the dishwasher, washing machine and dryer for full loads.
- ✓ Seal up the largest air leaks in your house.

YVEDDI Weatherization Assistance Program

What is the Weatherization Assistance Program?

The Weatherization Assistance Program operated by Yadkin Valley Economic Development District, Inc. (YVEDDI) is designed to help low-income people particularly the elderly and the disabled, overcome the high cost of energy, through the installation of weatherization or energy conservation measures - at no cost.

How does the Weatherization Assistance Program work?

The program consists of four steps:

1. An application to determine income eligibility.
2. An energy audit of the home by a professional inspector.
3. Installation of weatherization measures.
4. A final inspection to ensure work quality

What type of weatherization assistance can I receive?

- Weather-stripping
- Air infiltration reduction
- Attic insulation
- Floor insulation
- Wall insulation
- Blower door testing of home
- Water heater insulation
- Pipe insulation
- Compact fluorescent bulbs
- Water conservation measures
- Other energy saving measures

Who is eligible for the Weatherization Assistance Program?

Eligibility for services is based upon accountable income of the applicant family - which is based on up to 200% of the U. S. Family Poverty Index.

What is the Heating Appliance Repair and Replacement Program (HARRP)?

Some items that can be done with the HARRP are:

- Repair or replace existing heating system
- Test for carbon monoxide
- Install vented space heaters
- Tune ups

HARRP is used in conjunction with the Weatherization Assistance Program and is funded by the Low Income Heating Energy Assistance Program (LIHEAP).

Who is eligible for the Heating Appliance Repair and Replacement Program?

Eligibility for services is based upon accountable income of the applicant family - which is based on up to 150% of the U. S. Family Poverty Index.
